Subj: Comments on Draft Naval War College Speech
November 1963

1. Generally terrific!
2. Needs new lead-in. How about my standard pitch on rising importance of S&T after war, technical collection and analysis, new breed of intelligence, DDS&T, etc. Show by combination of estimative assertions and descriptions of collection and analysis programs.
3. Need firey wind-up to tie together.
4. Pull all of [REDACTED] viewgraphs on
a. Strategic threat ICBM's, etc.
b. Space Program (ala PSAC)
5. Grab National War College viewgraphs.
6. Make viewgraphs indicated.
7. Fix up some good ones for the Navy: i.e., subs, SARK, etc.
All with CIA Seal!
